The Plants and Trees are properly packed for transport.

The shipment is made to the entire European territory by specialized team.

MANUTENÇÃO E LIMPEZA
Maintenance and cleaning

- Para remover a poeira, limpe regularmente com um pano / espanador seco ou levemente úmido ou aplique ar comprimido em baixa potência e baixa temperatura. Uma vez livres de poeira, podem ser adicionados sprays anti-estáticos de polimento com base de parafina / cera.

- To remove dust, clean regularly with a dry or slightly damp cloth/duster or apply compressed air at low power and low temperature. Once free of dust, anti-static polish sprays with paraffin / wax base can be added.
